Student 4					

- 3. Register content of Capstone Project
- (\*) 3.1. Capstone Project name:

English: Online Medical Consultant System

Vietnamese: Hệ Thống Tư Vấn Y Khoa Trực Tuyến

Abbreviation: OMCS

- (\*) 3.2. Main proposal content (including result and product)
  - a) Theory and practice (document):
  - b) Program:

An online system that allows patients and doctors exchange information so that doctors can help patients to diagnose their medical issues and give advice. The system should support main features:

Doctor:

Real time conversation with patient

View patient history medical records

Build medical profile

Patient:

Real time conversation with doctor, support video captures

Add/update medical records

Vote/comment doctors

c) Other products:		
4. Other comment (propose all relative th
